New Hospice Agency Opens in Manhattan, KS; Offers care for patients with life limiting conditions and their families

April 7, 2014 – Manhattan, Kansas: Accord Health Group, a family and patient center healthcare company, announces Accord Hospice opening in Manhattan, Kansas. The office location is in the Candlewood Shopping Center at 3250 Kimball Ave and will serve a 65 mile radius from Manhattan. Accord Hospice provides care, comfort and support for persons with life-limiting conditions as well as their families whether it be in a home, assisted living, or skilled nursing environment. The hospice team works to make the person comfortable and relieve their symptoms and pain for the entire length of their illness.

The hospice team provides the following services to individuals: personal care, pain management and other symptoms, offer support with the emotional and spiritual aspects of dying, provide medications, medical supplies and equipment, teach family members skills to help them provide care, deliver special services like speech and physical therapy and other alternative therapies if needed, make short-term inpatient care available when pain or other symptoms become too difficult to manage at home, provide support and counseling to family members and loved ones.

"The team at Accord Hospice are incredibly excited to serve a broader patient base and are proud to be partnering with local pharmacies, nursing homes and other professionals in Manhattan and surrounding areas," said Sherry Wahl, Hospice Director, "It is our vision to raise the bar for an environment of dignity and respect with compassion, integrity, and quality at the forefront."

Patients and their families who receive services will experience the highest quality care and be surrounded by the company's commitment to exceptional care, customer satisfaction and a culture that amplifies dignity and respect. The creation of Accord Health Group, the parent company of Accord Hospice, comes at a time where there is a need of strong healthcare providers that focus on the patient, their families and a health care workforce with the expertise to meet their unique needs.
